New Business

Bob AB9FB and Matt KC9COY - The raffle for the Swapfest is in doubt. The license takes 4-6 weeks to process and probably won't be done in time. Bob will see if there is a way to expedite the process.

Volunteers will be needed. Too volunteer contact Matt or Bob.

Mark KB9VJQ – Tech update. Mark is researching new amplifiers to replace the homesick Henry. The Main Site antenna feedline has 6 PSI nitrogen on it and is holding.

The cavity still needs to be sent in for tuning. The Main Site feedline groundstrap needs replacing. Mark also made a good case for getting a spare exciter for Main Site.

The ongoing malicious interference to the repeater was discussed. Suppression efforts are ongoing.

Warren K9IZV – The ARES Diswtrict repeater is now the Delafield .82 repeater. Their backup is the FM38 system (UHF).
