

COMPUTER NET SCRIPT

9 pm Thursday night

“Good evening! This is _____ (call sign) and my name is _____. I am located in _____ (city, town, village) and I will be net control for this evening. On behalf of the MRC91, I would like to welcome you to the Thursday night computer/tech net”. “Licensed Amateurs are encouraged to check in, with or without traffic.”

“Traffic for this net means questions, comments problems or news about computers or other technical device's. If you have anything you are looking to buy, sell or trade, we suggest you check in on this frequency at 9pm Sunday nights for the Swap net, where this traffic is encouraged”.

“We may not accept traffic offering to distribute copyrighted programs. If you have an emergency during this net, please let us know and we will stop to handle your emergency.

Check ins are in alphabetical segments, based on the first letter following the numeral in your call sign. Mobile stations may ignore the roll call segments and check in at any time.

During check ins, please respond with your call sign in standard phonetics, your first name and whether you have traffic or not. Again, this is (name and call)”.

“We will now begin check ins with any mobile stations”:

(acknowledge by repeating what you heard and logged, or “hearing none, we will take check ins from”)

Call sign segment suggestions

“A -alpha thru D-delta come now please” (and so on)

When a net typically does not have a lot of check ins, it is suggested to do larger segments during the check in period, it is your call.

Please remember to use your call sign at least every 10 minutes per FCC regulations. Also, ask your guests to repeat their call sign if you read it back incorrectly.

Please take all check ins prior to the traffic portion of the net.

At the end of the net ask for any late check ins. If there are none say, “Hearing none, this net is now secured at _____pm. Thank you all for participating”. “We will now return the repeater to normal amateur use”. “This is (name and call) 73 and good night”.
